Portfolio | Github

PROFESSIONAL SUMMARY

Software Developer with hands-on experience in full-stack web development, React.js, Node.js, Python, and WordPress. Skilled in API integration, database management, debugging, and deployment, with practical experience in e-learning platforms and AI/ML-based projects.

TECHNICAL SKILLS

Languages: Python, C, SQL, JavaScript

Web Development: React.js, HTML5, CSS3, Node.js, Express.js, FastAPI

Databases: MySQL, PostgreSQL, MongoDB, Supabase

APIs/ ML: REST APIs, GraphQL, Scikit-learn, Pandas, NumPy, XGBoost

Tools & DevOps: Git, GitHub, VS Code, WordPress, Tutor LMS, Figma, Power BI

PROFESSIONAL EXPERIENCE

Web Developer Intern | **Sasha Infinity** | Jun 2025 - Present

- Developed and maintained a Tutor LMS-based e-learning platform supporting online course delivery and content management.
- Configured, updated, and troubleshot WordPress websites; supported platform maintenance and performance optimization..
- Supported AI-tool integration, frontend/backend development, API integration, debugging, and application improvements.

PROJECTS

THOZHIRPORUL - Smart Industrial Monitoring System

Technologies: React.js, Node.js, Express.js, PostgreSQL, Docker

- Developed a full-stack industrial governance platform featuring dashboards, GIS-based park mapping, compliance tracking, workflow automation, and AI-assisted decision support.

Dual-Layer AI Firewall for Securing LLM Applications

Technologies: Python, FastAPI, XGBoost, PostgreSQL, Docker

- Developed an AI firewall for prompt-injection detection using machine-learning classification and behavioral analysis, with FastAPI services and Dockerized deployment.

Credit Card Fraud Detection Using Machine Learning

Technologies: Python, Scikit-learn, Pandas, NumPy

- Built a classification model for fraudulent transaction detection using structured data preprocessing and transaction behavior patterns.

EDUCATION

Master of Computer Applications - Sona College of Technology | CGPA: 8.3/10
Expected graduation: 2027

Bachelor of Computer Applications - Sona College of Arts & Science | CGPA: 7.9/10
Graduated May 2025

ACHIEVEMENTS

Winner — SIF Pitch Fest 2026; Finalist — SDG Hackathon 2026; Smart India Hackathon 2025 Internal Round Qualifier; Top 500 — Niral Thiruvizha 3.0.

CERTIFICATIONS

NPTEL Java - Elite + Gold | Full-Stack Web Development Bootcamp | Cybersecurity & Ethical Hacking | Ignite Bootcamp - Venture Idea Development | UiPath RPA Citizen Developer Foundation | Power BI Workshop | Cloud and Virtualization|

LANGUAGES

Urdu - Native | English - Professional Working Proficiency | Tamil - Fluent | Hindi - Conversational
